The Con. Mercur the Forerunner of Others.

TO BE LAUNCHED SOON LAKE CITY

MANAGER COHEN AND MR. HAMMOND NOW AT MERCUR.

Everything being in readiness Gen-eral Manager H. A. Cohen of the Con-solidated Mercur Gold Mines company, accompanied by John Hays Hammond, the eminent engineer to whom has been entrusted the responsibility of de-termining what shall be done with the proposition involving the sale of the control of that property, pulled out for control of that property, pulled out for camp yesterday morning. The deal is one of such magnitude, involving as it does millions of dollars, that several weeks will more than likely be con-sumed in going through and determining the true physical condition of the mines, to say nothing of the stud which will likely be made of the method. ods of treatment employed beneath the roof of the great Golden Gate mill; though in that respect everything has been brought down to such an exact science that to witness the process un-

ertain way within the next sixty or

Whether Mr. Hammond's constitu-ency is behind them it is yet too early to say, but that they are incubating within some of the strongest financial fircles in the world is positively as-ured. The coming year promises to be a most momentous one in the his-ory of Utah's mining industry.

WHAT IS IN THE WIND.

The Talent Is All at Sea Regarding Grand Central.

That there is "a hen on" in Grand Central affairs, all mining men trying maneuvers are daily declaring, but just maneuvers are daily declaring, but just what is up none of them are in a position to state. The delicate tension at which all nerves are strung is particularly noticeable in the fluctuations of the stock. On the strength of most any sort of a rumor the market either feverishly advances or suddenly declines, and as the management maintains the strictest silence the talent is constantly at sea.

Yesterday morning the stock sold at \$6.20 on the floor of the exchange, but notwithstanding reports of great trainloads of ore on the way to market and the knowledge that over fifty cars had been marketed within three weeks, the shares were offered on the street during the afternoon at considerably under \$6. A dividend of 10 cents a share, at least, is confidently expected to be ordered paid when the board meets a week from today; and in the face of all these good tidings the fear was apparent that a

serious decline was imminent.

The approaching sult with the Mammoth company, wherein the Grand Central is plaintiff, appears to stand out like a ghost in the night time to crighten the holder of that security, but why it should no one pretends to know. It would be an act of mercy for the management of the Grand Central to lossen with a statement to its sharen with a statement to its share-rs, explaining the physical condin of the mine, its outlook for the ture and the size of its treasury re-ve. Nothing short of that will serve

HUCK AND KIMBERLEY COMING. Several Important Business Matters to Be Considered by Them.

will proceed to Gold Mountain. Since their departure several weeks ago rapid headway on the new mill has commenced and will be pushed to complete their departure several weeks ago rapid headway on the new mill has been made and it is understood that effort will be made to "limber up" the machinery during their visit.

Other matters to which they will likely give their attention will be the closing up of the deal for the remaining interests in the Golden Star company held by Pat Ryan. In addition they may close negotiations for other properties on which they have had the call for several months past and stir things up generally during their stay. The Honorine, in which Mr. Kimberley is interested with Charles H. Scheu and others will also be hammering away again during the next few days, and Mr. Kimberley will probably involude a trip to Stockton in his itinerary the first of the coming the ready for delivery short-by active the first of the coming space by ordering early. New York. Nov. 2.—Commercial Advertiser's London cablegram: The market here was listless and dull today. The cable changes cut no figure. Speculative interest today, however, was entirely lacking. London regarded American securities with equanimity and Berlin bought Southern Pacific apparently on talk of dividend expectations, but the lack of elasticity in New York checked the moving. London now awaits the results of the election without the slightest perturbation regarding the re-election of Mr. McKinley as a foregone conclusion, like the return of Lord Salisbury. There is no betting on the outcome, all offers being on McKinley, and there being no takers. The consol settlement passed off easily and money slackened.

Chicago, Nov. 2.—Wheat prices, after an active session, left an Irregular trail, but, for all its sinuosities the tendency was painly downward. December opened %6%c higher at 74%4745, under pressure from shorts, who were surprised at a silent advance at Liverpool in the face of the decline here yesterday The crowd, however, seemed to have plenty of long stuff, and the clear weather and an Argentine cable reporting prospects "satisfactory" were sufficient to fifted carly, rallied to 74%67442 and then pressed by additional influences, including of three flour finits at Minneapolts slumped to 73%. On profit taking of three flour finits at Minneapolts slumped to 73%. On profit taking by shorts December rallied sharply to 73% but the advance tailed to find substantial support and further liquidation sent the price back to 73%. The close was weak, December ½c lower at 73%.

Corn was quiet, despite the weakness in the wheat pit. The market derived strength from light receipts and good export demand. December closed ½ over yesterday at 53%.

TRIBUNE MAN'S BET. Posted \$500 on the State, But Hayes'

Wager Not Forthcoming.

P. H. Lannan came to Ogden yester-lay with money to bet on McKinley's carrying Utah. Mr. Lannan had been in town but a short time before it became noised about. The size of the bluff rather took the moneyed men off their guard. Lu Parry of the Silver club covered \$500 of the money. George Frye being in with him on the snap. Parry started out to rustle more funds as Lannan said he could accommodate others with similar propositions. However he returned to Salt Lake by the 2:30 train and the episode was not taken seriously for the reason that about two weeks ago he came up with money to bet the same way. He made one or two bets and when Albert Sadd and others chased him down Twenty-fifth street to get more he said he must catch the 2:05 train—it was then 1:05. However he left his telephone address and that evening he was called up but did not want to bet at that time. carrying Utah. Mr. Lannan had been

ed up but did not want to bet at that time.

Some days ago the Tribune published an account of an offer of odds at 3 to 1 that A. B. Hayes would be elected district attorney of the Second district over Valentine Gideon. Gideon's friends notified the Tribune man to send on the money and they vould take it on an even basis, but the money has not yet been posted.
